Lenght units in TₑX

The given conversions my suffer form rounding errors and are only for guidance.
The shown rules are 1 mm thick. Please note that the very short rules may not be rendered correctly on you screen (or printer) and appear longer than they are.

10 sp · 10 pt · 10 bp · 10 dd · 10 mm · 10 pc · 10 cc · 10 cm · 10 in

Scaled Point

Definition
The scaled point is defined as 1/65 536 points.

Anmerkung
This is the smallest unit TₑX uses.

Umrechnung
1 sp = 0 mm = 0.000 02 pt

(PostScript-)Point

Definition
The point is defined as 1/72.27 inch.

Umrechnung
1 pt = 0.351 46 mm = 65 536 sp

Big Point (DTP point)

Definition
The big point is defined as 1/72 Inch.

Anmerkung
Word, InDesign and other DTP applications use this definition for points.

Umrechnung
1 bp = 0.352 77 mm = 1.003 74 pt = 65 781 sp

Didot Point

Definition
An old unit used by European printers

Umrechnung
1 dd = 0.376 07 mm = 1.07 pt = 70 124 sp

Millimetre

Definition
SI unit

Umrechnung
1 mm = 2.845 26 pt = 186 467 sp

Pica

Definition
One pica equals twelve points.

Umrechnung
1 pc = 4.217 54 mm = 12 pt = 786 432 sp

Cicero

Definition
One Cicero equals twelve Didot points.

Umrechnung
1 cc = 4.5128 mm = 12.8401 pt = 841 489 sp

Centimetre

Definition
SI unit

Umrechnung
1 cm = 10.000 05 mm = 28.452 74 pt = 1 864 679 sp

Inch

Definition
One inch equals 2.54 centimetres.

Umrechnung
1 in = 25.400 13 mm = 72.269 99 pt = 4 736 286 sp

Em

Definition
The size of an em depends on the current font family and size. It is about the width of a capital M and its value is defined in the font file.

Anmerkung
This unit should be used for all horizontal distances, that should change with font size, e.g. the paragraph indention.

x Height

Definition
The x height depends on the current font family and size. It is about the height of a lower x and its value is defined in the font file.

Anmerkung
This unit should be used for all vertical distances, that should change with font size.

Math Unit

Definition
This unit equals approx. 1/18 em of the math font family.

Anmerkung
It can only be used for spacing in math mode.

500 dd · 500 bp · 500 pt
